

On Call. On Demand.

Moving & Storage when you need it.

When you need to move, you need to move. PODS® gets it. We are Portable On Demand Storage, designed to make moving and storage more efficient and flexible — for you.

Store it.

- **On site** Safe, ready access — only you have the key to your container. It's perfect for use to store construction supplies or your belongings during renovations.
- **Off site** Convenient access in a dry and secure PODS warehouse. What a great way to unclutter or store your belongings during an interim move.
- Long- and short-term storage.

Move it.

- Pick-up and delivery direct to your door — around town or to any city serviced by PODS*.
- Pack at your convenience (or use professional packers).

Or both.

- Warehouse storage between moves.

It's simple:

1 We deliver the container to you using a hydraulic lift

2 You pack at your leisure — no time constraints

3 We pick up and deliver — when and where you want*
